

Integration of Ukraine into the European educational space

The subject of the study course

– theoretical and practical basis for the formation and functioning of the European educational space, opportunities and prospects for Ukraine's integration.

The scope of course is **5 credits 150 hours**, including **30 hours** of lectures and **16 hours** of practical training

The period of course's study:
4th year

The aim of the course

to develop competencies for future specialists about the features of integration of Ukraine into the European educational space, as well as practical skills of preparation and participation in European educational programs (Erasmus Mundus, Erasmus +, etc.); developing skills in the practical usage of the knowledge gained and preparing documents to apply for participation in these programs.

European educational space

The European education space is a unique international collaboration on higher education and the result of the political will of 48 countries with different political, cultural and academic traditions, which, step by step during the last twenty years, built an area implementing a common set of commitments: structural reforms and shared tools.

For all these countries, the main goal is to increase staff and students' mobility and to facilitate employability.

- **These 48 countries agree to and adopt reforms on higher education on the basis of common key values– such as**

freedom of expression

autonomy for institutions

independent student unions

academic freedom

free movement of students and staff
